1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Biggers on 27 April 2005.

3. The application has been amended as follows:

In the Claims:

Claim 8, line 18—the first occurrence of “the mouse,” has been deleted;

Claim 9, line 1—“1” has been replaced by “8”;

Claim 10, line 6—the first occurrence of “the GUI,” has been deleted.

The above Examiner's amendments serve to remove typographical uncertainties and also to correct a potential problem as to proper antecedent basis posed by claim 9's original dependence upon claim 1.

4. The following is an examiner's statement of reasons for allowance:

Applicant's terminal disclaimer with respect to commonly-owned US #6,639,612 B2 is sufficient to overcome the difficulty with double patenting that had existed at the time of the previous office action between the present claims and those previously patented. While the outstanding rejection was based on the “same invention” prohibitions of 35 USC 101, the Examiner notes now upon new consideration that there was sufficient difference between the present “statefully toggling” “to the new status of the first check box” and the '612 patent's “toggling the status” to reduce the difficulty to

one at most of non-statutory, judicially-created double patenting, of the kind that may be remedied by terminal disclaimer.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
